FLIP-FLOPS & SANDALS

I'm green™ by Merveyl

Merveyl has created its own innovative, bio-based collection of eco-friendly, reusable, and recyclable footwear. The sole is made from sugarcane, which is grown naturally in South America with zero carbon footprint.

Composed of at least 85% organic materials, this EVA resin material is certified and endorsed by I'm green™ by Merveyl. This sole quality gives the footwear exceptional properties: flexibility, lightness, wear resistance, slip resistance, and waterproofing!

The flip-flops and sandals are presented back to back, tied with a cord and featuring a round I'm green™ by Merveyl label. We design them from start to finish in our factories, just for you.

You can join the I'm green™ adventure, which we have exclusive worldwide rights to, and offer your customers a unique experience focused on sustainable renewal, now at the forefront of the hotel industry.

TAILOR-MADE CREATIONS WITH 85% BIO-BASED I'M GREEN™ RESIN

ECO PACKAGING

FOR FLIP-FLOPS & SANDALS

The eco-friendly flip-flops in our I'm green™ by Merveyl range are presented sole to sole and tied together with a jute cord. Attached to the cord is a round label made from recycled cardboard indicating the nature of the product, which is 100% customizable.

What message does our label convey to your customers?

Our recycled cardboard round label has two printable sides. The standard version highlights the product's environmental features, as shown opposite.

The customizable version allows you to add your logo, slogan, or image of your choice to one of the sides.

FOR SLIPPERS & SANDALS

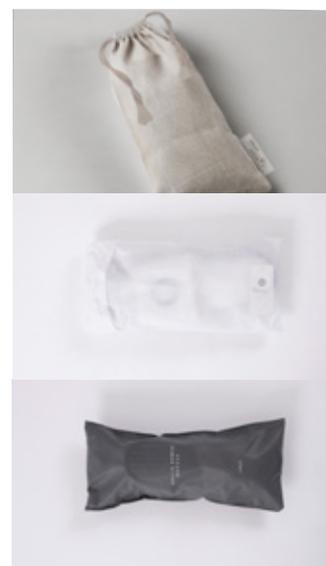

Our eco-friendly slippers are carefully held together by a paper band wrapped around them, sole to sole. The band is available in cardboard, thick kraft paper, or white paper.

The cardboard is adjustable to fit the size of the slippers and can be resealed using a sticker on the back.

Like most of our products and accessories, this band is available in a standard version or a customizable version, as shown below.

It is also possible to present the slippers in a customizable box, such as an organza bag with double drawstrings available in three colors: beige, white, or black, as shown below.

COMPLIMENTARY ITEMS

BIO-BASED BAGS AND BOXES

Because a pleasant stay also depends on the little details, our accessories combine practicality, elegance, and respect for the environment.

A RANGE IN SACHETS

Product Catalog 2026

New complete range of eco-friendly courtesy accessories, packaged in white kraft paper

Developed in-house, it offers sustainable alternatives to traditional plastic products. Kraft paper is 100% recyclable and biodegradable, and can be recycled up to seven times on average. The accessories are bio-based, such as the PLA toothbrush and toothpaste in sealed kraft sachets. The range is available in four languages: French, English, Spanish, and German—at unbeatable prices.

COMPLIMENTARY ITEMS

NATURAL BIO-BASED BOXES

Discover our wide collection of courtesy items packaged in bio-based Kraft boxes that are completely plastic-free and sourced exclusively from responsible sources.

In our Kraft collection, cotton swabs, toothbrushes, and combs are made from bamboo.

Bamboo is a fast-growing flowering grass known for being robust, durable, and naturally renewable.

The cotton makeup remover pads are 100% compostable and their disposal does not harm the environment.

The high-quality shower cap is made from corn starch. Ideal for keeping hair perfectly dry in the bath or shower.
