The right products, the right fit for your guests

Finding the right skincare or amenity partner isn't just about looking at a glossy catalog. It's about knowing which brands actually deliver results, which ones your guests notice, and which ones align with the specific identity of your hotel or spa.

At Merveyl, we aren't here to push products, we are here to curate. We act as a filter for your establishment, sourcing brands that meet the high standards of performance and guest satisfaction that you expect. We know that for you, a product is only as good as the consistency of the supply chain behind it.

Our job is to bridge the gap between quality cosmetic houses and your day-to-day operations. We've done the heavy lifting of vetting these partners so you don't have to waste time testing what doesn't work. When you choose a brand from our portfolio, you aren't just buying inventory; you're investing in a reputation that keeps your guests coming back.

Here is our current selection. Let's find the right fit for your property.

Atelier Rebul

The Legacy

Founded in 1895 by French pharmacist Jean Cesar Reboul in Istanbul, Atelier Rebul is one of Turkey's oldest and most respected heritage brands. Combining traditional French cosmetic expertise with the rich, aromatic flora of the Mediterranean, the house began as a neighborhood pharmacy. Today, it remains a symbol of authentic botanical know-how and pharmaceutical precision.

The Positioning

Atelier Rebul bridges the gap between pharmaceutical efficacy and accessible luxury. The brand focuses on clean, natural ingredients and timeless well-being. It is positioned for conscious consumers who seek expert-backed skincare formulas coupled with sophisticated, nature-inspired scents that calm the mind and body.

Atelier Rebul – Istanbul

Deeply rooted in the spice markets and hidden gardens of the East, the Istanbul collection centers on a signature blend of shimmering bergamot mixed with warm cinnamon and saffron. It creates a rich, woody atmosphere that lingers long after use. For premium hotels, this line provides a sensory narrative of heritage and mystery, ensuring guests feel immersed in a curated, global travel experience.

Thémaé

The Legacy

Founded in Paris in 2007, Thémaé is a pioneering cosmetic house inspired by the Japanese tea ceremony (the Chanoyu) and the art of self-care. The brand derives its name from the precise gestures used by the Tea Master to prepare the brew. Thémaé

This collection offers a bright, uplifting experience rooted in an airy, musky universe.
